

Mathematical Modelling of Natural Phenomena

Call for Submissions until the end of 2021

Topical issue on “Cancer modelling”

Guest Editor: Professor Florence Hubert

Mathematics Institute

Aix-Marseille University, France

Mathematical modelling of cancer is one of the most active fields in mathematical biology. MMNP has already published several topical issues on cancer modelling. The latest is an open issue started in 2020 for which we invite contributions addressing:

- modelling of tumor growth
- cancer treatment
- tumor heterogeneity and evolution of cancer cells
- metastasis and secondary tumors
- other topics in cancer modelling

Articles submitted before the end of 2020 will be published in open access free of charge under the Subscribe to Open (S2O) programme, ensuring wide dissemination of research.

- A mixture of invited articles and spontaneous submissions
- All submissions are peer reviewed
- Submissions should include modelling with a sufficiently advanced mathematical model
- Seven articles already published in 2020 and free to read at bit.ly/MMNPCancer

Visit mmnp-journal.org to submit
Choose the article type “Cancer modelling”

Mathematical Modelling of Natural Phenomena

Mathematical Modelling of Natural Phenomena (MMNP) is an international research journal, which publishes top-level original and review papers, short communications and proceedings on mathematical modelling in biology, medicine, chemistry, physics, and other areas.

The scope of the journal is devoted to mathematical modelling with sufficiently advanced models and includes applied mathematics and mathematical analysis in the context of its applications to real world problems.

2019 Impact Factor:

1.642

JCR, Clarivate Analytics

Q2 in Mathematics,
Applied and Interdisciplinary
Applications

Subscribe to Open:

In 2020, MMNP is published under Subscribe to Open (S2O), a pilot open access programme.

- All articles are published in open access free of charge under a CC-BY 4.0 licence
- All articles are free to read without a subscription
- New subscribers may join the programme at any time – speak to your library

International Editorial Board:

MMNP is supported by an expert editorial board led by

Editor-in-Chief: **Vitaly Volpert**

Institute of Mathematics, University Lyon 1, France
